

# Autopilot Off, Make A Sound

I don't know if we'll make it home  
All we can do for now is hope

I don't know if we'll make it home  
Water all around could swell and wash us all away  
Away  
And if we never set our feet on land again  
This will be one last song I will not forget

And if you drown  
You wont even make a sound  
You'll just swallow water down  
At the bottom you'll find out  
That it's quiet when you drown

I'm losing track of all the days  
Lost inside a lifeboat  
Drifting out with all the waves  
The waves  
And some will find their way by looking towards the sky  
And some will leave their fate up to these ocean tides

And if you drown  
You wont even make a sound  
You'll just swallow water down  
At the bottom you'll find out  
That it's quiet when you drown

And when you drown  
You'll never even make a sound  
And when you drown  
Your gonna swallow water down

The water gets so heavy  
The water gets so heavy  
The water gets so heavy

The water's heavy when you drown  
You wont even make a sound  
You'll just swallow water down  
At the bottom you'll find out  
That it's quiet when you drown

You'll never even make a sound  
You'll just swallow water down  
At the bottom you'll find out  
That it's quiet when you drown
