Autopilot Off, Make A Sound

I don't know if we'll make it home All we can do for now is hope

I don't know if we'll make it home Water all around could swell and wash us all away Away And if we never set our feet on land again This will be one last song I will not forget

And if you drown You wont even make a sound You'll just swallow water down At the bottom you'll find out That it's quiet when you drown

I'm losing track of all the days
Lost inside a lifeboat
Drifting out with all the waves
The waves
And some will find their way by looking towards the sky
And some will leave their fate up to these ocean tides

And if you drown You wont even make a sound You'll just swallow water down At the bottom you'll find out That it's quiet when you drown

And when you drown You'll never even make a sound And when you drown Your gonna swallow water down

The water gets so heavy The water gets so heavy The water gets so heavy

The water's heavy when you drown You wont even make a sound You'll just swallow water down At the bottom you'll find out That it's quiet when you drown

You'll never even make a sound You'll just swallow water down At the bottom you'll find out That it's quiet when you drown
