

# Autumnblaze, I Am Water

There are days I feel as tired as the oldest man  
An empty shadow in the park  
I am a raindrop swimming on the window pane  
It's always the same dull pain

I'm just here to drown

Before I go to sleep I try to think of something good  
A permanent ocean and you

[Chorus:]

I am water

You only have to dive into me

I am water

My mute heart - a singing wave

Tomorrow is another chance to say nothing again  
Someone could find me in the park

Am I just here to drown?
