

Avantasia, Lost In Space

Another star has fallen without sound
Another spark has burned out in the cold
Another door to the barren standing open
And who is there to tell me not to give in, not to go?

How could I know, how could I know?
That I'll get lost in space to roam forever
How could I know, how could I see?
Feeling like lost in space to roam forever

I'm crawling down the doorway to the badlands
Been kicking down all your hurdles to the black
And all the damage fading in the rear-view mirror
And the demons are calling me
They're dragging me away

How could I know, how could I know?
That I'll get lost in space to roam forever
How could I know, how could I see?
Feeling like lost in space to roam forever

Lost in space, lost in time
Lost in space, lost in time
Lost in space

How could I know - How could I
How could I know - How could I know
That I'll get lost in space to roam forever
How could I know - How could I see
Feeling like lost in space to roam forever

Forever...
