

# Avantasia, No Return

(Lugaid:)

Mental vigour's been right on the edge  
To a 'stupefying' hole of no return  
Now we dance a holy war is won  
But there must be more we got to learn

(Gabriel:)

Don't you know now that I'm here I must go  
Into the morning light - illuminate the night  
Be the guide on our side - the Gnosis

No return - I will go, follow the call of my spirit  
No return - I must know all that I never could ask  
No return

No I still can't leave the world in here  
Soon I feel that I am gonna get her free  
But I've smelled at and I long for more  
Take me in, oh I beg, philosophy

Oh I got to know, more now so I must go on  
Into the morning light - illuminate the night  
Be the guide on our side - the Gnosis

No return - I will go, follow the call of my spirit  
No return - I must know all that I never could ask  
No return

(Solo: Henjo Richter)

(Elderane:)

No return - maybe you must pay  
Many've been in quest for truth  
Insanity has swallowed away  
No return - but I wish you all the best  
Go and face the tree of knowledge and be free

(Gabriel:)

No return - I will go, follow the call of my spirit  
No return - I must know all that I never could ask
