

Aven, All I want

All I wanna do, is to spend some time with You
And all I ask of You, is to bring me back to You
And all I wanna do ooooh, is to spend some time with You
And all I ask of You, is to bring me back to You
Don't look back, don't rewind
All You need, You will find
Keep it up, Move on up
Don't never look back
As time went by, You seemed to forget
The word of Your words, You once said
You showed me the way, and now I'm there
I'm in love with You, but You're not there
All I wanna do, is to spend some time with You
And all I ask of You, is to bring me back to You
And all I wanna do ooooh, is to spend some time with You
And all I ask of You, is to bring me back to You
Don't look back, don't rewind
All You need, You will find
Keep it up, Move on up
Don't never look back
As time goes by, I know I will move on
A voice inside me tells me to be strong
I want to give You up but I'm aware
I'm in love with You, but You're not there.
