

Averi, Hide Away

Happiness, is a wave you've got to ride
To the sandy shores of an island in your mind
Where you can stay secluded
This is your hideout
Let's leave tonight
Is there room for me now?
But I didn't mean to bring it up again...
I am sorry for the ways I've let you down
Now it's best for us if we just don't make a sound
So hide away
I lost my groove, now I s-s-s-stutter when I speak
And I have no proof that there's reason to believe in me
But I can feel what you're saying
And I'm not sold yet
Because we're trying to remember
What we've tried so hard to forget
And you didn't mean to bring it up again...
I am sorry for the ways I've let you down
Now it's best for us if we just don't make a sound
So hide away
You point me out
Cause you've known me for so long
And I slow down
When the words come out all wrong...
When the words come out all wrong ... yeah
I am sorry for the ways I've let you down
Now it's best for us if we just don't make a sound
So hide away
Hide away
...And stay beautiful inside your hideout
But I'm not coming
This is goodbye now
