

# Away From It All, The Teeth In Terror

with your lips a breath away from mine  
I've never felt so romantic  
I read the catch line at least three times  
why the f\*\*k won't you kiss me?!  
there's an error in this script  
there's a wrench in our plans  
I'm so close I can taste you and I can't turn back  
this isn't the last season  
we'll have our time  
because in my mind we were always meant to be  
shut the cameras off  
call this a publicity stunt  
put it in the front page  
I just fell in love with you
