

# Axel Rudi Pell, Nothern Lights

Rain's falling down from the orizon  
we're travelled all across the seas  
the vast expanse of the ocean  
(the) siren called under a plea

We're sailing in circles  
almost blind  
we are at the point of no return

The Nothern lights  
keep on shining  
over the ocean and the sea  
Nothern lights  
shine on forever  
(the) guiding light for you and me

From far away we saw a rainbow  
shimmering bright(ly) across the land  
we called the rulers of Atlantis  
leading us through the world's dead end

We're sailing in circles  
almost blind  
we are at the point of no return

The Nothern lights  
keep on shining  
over the ocean and the sea  
Nothern lights  
shine on forever  
(the) guiding light for you and me

The Nothern lights  
keep on shining  
over the ocean and the sea  
Nothern lights  
shine on forever  
(the) guiding light for you and me
