

Axium, Incarcerate

So much for being alone
Cold peace on my own
I'll cut my skin to show you I'm alive
A king on high-volt throne
The world is ours to own
Our ashes are so divine

I'll swim in you if you'll drown in me
We'll search everywhere for a happy ending
Incarcerate, rest peacefully
Where you are

Do you remember me
With all that I can see
A hole in my head because you were mine
Like a closed book you can read brings back those memories
On how everything looks outside
It looks outside

I'll swim in you if you'll drown in me
We'll search everywhere for a happy ending
Incarcerate, rest peacefully
Where you are
Incarcerate
Incarcerate

I'll swim in you if you'll drown in me
We'll search everywhere for a happy ending
Incarcerate, rest peacefully
Where you are
