

# Axxis, Brandnew World

A million promises were broken in the sea of lies  
A million words were spoken in the depth of your eyes  
Throwing all doubts away  
Hope my words let you stay  
Imagine we can find a way to live in paradise  
Imagine we could get a vision that never dies  
Nothings gonna be the same and I promise this way  
For you...  
I will find a brandnew world  
What we share is magic, what we sare is fantasy  
Don't belive it's all a mistery - belive in me  
Like a small inner flame  
Reaching out for an aim  
Imagine we could find...  
Imagine we can find a way to live in paradise  
Imagine we could get a vision that never dies  
We will never say goodbye - that is forever  
Now I know you don't belive - but never say never  
Nothing's gonna be the same and I promise this way  
For you... I will find a brandnew world
