## Axxis, Heaven In Black (Acoustic Version)

Are you cold as ice, are you hot like fire Going to extremes - your desire Go to the left - go to the right In the middle you will find a reason not to fight

Different worlds, different things Different thoughts of different people God given blaze of colour everywhere

Heaven in black - heaven in white Loving the darkness and the light Different thoughts could make our life so colourful Heaven in black - heaven in white Living by day and loving the night Opposites attract in our life

Everybody is black, every flower is grey The same old prayers we all pray A boring world without good and bad Our life would really be so sad

Different...

Heaven in black - heaven in white Loving the darkness and the light Different thoughts could make our life so colourful Heaven in black - heaven in white Living by day and loving the night Opposites attract in our life Everybody's life

Heaven in black - heaven in white Loving the darkness and the light Different thoughts could make our life so colourful Heaven in black - heaven in white Loving the darkness and the light
