

# Axxis, Heaven in Paradise

Come to me  
I'll show you how the world could be  
Milk and honey down the hill  
Clearest water running still  
The paradise is not so far  
Following the shining star  
Cannot wait I will be first  
Heaven will be here on earth  
Tonight I'm gonna shut my eyes  
I'm blinded by your light  
Oh, let the fire burn so bright

Chorus:  
You're my heaven in paradise  
You're a blessing in disguise  
You're my heaven in paradise  
I hold my breath and close my eyes

I don't see  
Why you mean that much to me  
Kiss me and I kiss you twice  
Let me feel your paradise  
Come on, come on take my hand  
Follow me and understand  
I'll stay here for a while  
Touch me with your smile - your smile

Chorus:  
You're my heaven in paradise  
You're my blessing in disguise  
You're my heaven in paradise  
I'm gonna shut my eyes  
I'm blinded by your light  
Oh, let the fire burn so bright  
I hold my breath and close my eyes

Chorus:  
You're my heaven in paradise  
You're a blessing in disguise  
You're my heaven in paradise  
I hold my breath and close my eyes
