

# Axxis, Shadowman (Live)

Magic Night - I can hear the voice of the shadowman...

Every night  
I hear the steps in my mind  
I'm freezing and feel the fear  
This nightmare won't disappear

I try to touch your face  
Hiding away in the haze  
You're turning your head, I cry, I die  
This eyes red like fire are mine

I'm gonna break the glass  
I'm in a mirrorland  
Everywhere I go, I stay  
There is no place to hide away

Magic night  
I can hear the voice of the shadowman  
Dream my dream there is no way out  
Magic eyes  
Take a look in the face of the shadowman  
It's like a hellride through your mind

Wings of night  
A black door to the other side  
Here is the gate to the depths of my soul  
When my spirit is out of control

I feel it in a daze  
I watch that demon face  
I know it's myself I see...  
The shadowman it's me

I'm on the other side  
The darkworld of dreams  
I'm bad, not innocent  
My other self in the mirrorland

Magic night.....

I'm the shadowman.....
