## Axxis, Shadowman (Live)

Magic Night - I can hear the voice of the shadowman...

Every night
I hear the steps in my mind
I'm freezing and feel the fear
This nightmare won't disappear

I try to touch your face Hiding away in the haze You're turning your head,I cry, I die This eyes red like fire are mine

I'm gonna break the glass I'm in a mirrorland Everywhere I go, I stay There is no place to hide away

Magic night
I can hear the voice of the shadowman
Dream my dream there is no way out
Magic eyes
Take a look in the face of the shadowman
It's like a hellride through your mind

Wings of night
A black door to the other side
Here is the gate to the depths of my soul
When my spirit is out of control

I feel it in a daze I watch that demon face I know it's myself I see... The shadowman it's me

I'm on the other side The darkworld of dreams I'm bad, not innocent My other self in the mirrorland
