

# Axxis, The Four Horseman

And when the lamb opened the  
first seal,  
I saw, I saw the first Horse.  
The Horseman held a bow  
Now when the lamb opened the  
second seal,  
I saw, I saw the second Horse  
The Horseman held his sword  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green  
And when the lamb opened the third seal,  
I saw, I saw the third Horse.  
The Horseman had a balance  
Now when the lamb opened the fourth seal,  
I saw the fourth Horse.  
The Horseman was the Pest  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green  
The leading horse is white  
The second horse is red  
The third one is a black,  
The last one is a green.....
