

# Axxis, The War

I gotta think about the way we're living  
I gotta think about that life  
Can see the worlds collide - there's no forgiving  
Who's really ruling our world now?  
We brush aside and ignore...

Chorus:

...we're in a war - the war  
The war is everywhere  
I see the war - the war in you  
I see the war - the war  
The war behind the scenes  
I see the war of the worlds  
The voices unheard - now fight

Oh, my world is ruled by cheats and liars  
We're in a war for their desires  
We're infiltrated by other powers  
Strike back - the world is ours!

Chorus:

We're in a war - the war  
The war is everywhere  
I see the war - the war in you  
I feel the war - the war  
The war behind the scenes  
I see the war of the worlds  
The voices unheard - now fight

Solo

Chorus:

I see the war - the war  
The war is everywhere  
I see the war - the war in you  
I feel the war - the war  
The war behind the scenes  
I see the war of the worlds  
The voices unheard, the voices unheard - now fight
