

# Ayiesha Woods, Big Enough

You turned water into wine - how extraordinary  
Gave sight to the blind - and still I carry  
My own load when you told me  
To take your yoke 'cause yours is easy

And even though my issues seem trivial  
You alone are never too imperial  
Its just the way that you love me  
Its enough to convince me

And I don't wanna box you in  
You've been doing big things since the world began  
Sometimes I just don't wanna believe  
That you're big enough - but you're big enough yeah!

I don't wanna box you in  
You've been doing big things since the world began  
Sometimes I just don't understand that you're big enough  
But you're big enough Jesus

You turned darkness into light - keep my lamp burning  
And you are my everything  
There's no denying, your love is so amazing  
And even though my problems seem typical  
Nothing for you is ever too difficult  
You never have reservations - love without limitations

And I don't wanna box you in  
You've been doing big things since the world began  
Sometimes I just don't wanna believe  
That you're big enough - but you're big enough yeah!

Oh, no matter how I try to get around it - I'm reminded  
Wherever I go I'm totally surrounded  
It's all about you - I can never doubt you  
Even if I wanted to...

And I don't wanna box you in  
You've been doing big things since the world began  
Sometimes I just don't wanna believe  
That you're big enough - but you're big enough yeah!
