

Ayria, Beta Complex

I've wasted time
I've wasted this mind
A superficial life
With apathy
I know we have not won
I know this all because
When we have everything
It will not change a thing

Just leave me alone today
Because all I do causes so much pain

Know no one part hello
The depthless friends that go
If I don't feel something
I'm going to burst
I tied you to myself
I thought that that would help
I tried to pull you in
I let the rope break

Just leave me alone today
Because all I do causes so much pain

I feel bad today
I don't really know what to say
I don't want to feel bad today
But I guess it's always the way

I don't want you and there's nothing I can do
