

Ayria, Red Shift

Energy passes
A mass of great distance
Red shifting slightly
Extremely ridged
Shifting away from gravitational existence
Everything happens with massive resistance

Shifting towards the red
Proportional to distance
Cosmological effect
Receding from our mission
Increasing energy
Recess velocity

The count goes on to
1, 2, 3, 4

Here I stand planted in this world, waiting

I see atmospheric extinction
Leading to planetary revolution
All the while threatening annihilation
We're facing a
colonized obliteration
