

# Az, Everything Is Everything (Remix)

(feat. Joe, Nas)

[intro]

[Nas]

Untouchable, Ill Will y'all

[AZ]

Life

[JOE]

Your dealin' with veterans now

[Nas]

AZ y'all, c'mon c'mon c'mon

[AZ]

We tryin' to win y'all

[JOE]

Now Nas, AZ and J-O-E

[AZ]

I'm back, no Belve, just bottles of Don

With the same wordplay that supplied the Qu'ran

Any stagnation, I rise beyond

Get it right, understand my ties are strong

From the streets where it all started, back in school

To the dough stackin' nigga started actin' fool

Used to be the loud type love to flash the jewels

Hit something nice then broadcast the news

Bags of weed, used to slow drag the weed

Did it all in the hood, had to leave

Asthmatic, guess I had to breathe

Short nigga what up, short to grab the 'vees

Blasted for few winters, rejuvenated

Returnin' like you remembered, but more swifter

Stronger than your malt liquor

Money, hoes and clothes, don't let them whores get cha

They not fair

[chorus x2: Joe]

That's how we bump, that's how we bang

Shorty now we all up on them thangs

Play your part, play the game

And everything is everything

[Nas]

My words are my life and my life come with laws

You my brother keeper mean I'd give my life for yours

It's death before dishonor, the rules we would practice

Never play with love, love is evil spelled backwards

'Member the real shit, friend I would build with

Before the Benzs, three quarter trenches it was all friendship

This shit's odd to me, let no one abuse it

Everything's everything niggaz I love music

When Donny Hathaway sing I close my eyes slowly

Body get weak, as if I could feel my soul heat

These dudes get jealous, rappers got a lot of change

Can't solidify their own position 'til I'm out of the game

But fuck'em, cause yo "A" this was needed

Cause when we stopped our flow the fake one's succeeded

And "D" this the game bab' bro, nuttin' change, they know

Play Illmatic then listen to them, same flow

[chorus x2: Joe]

[bridge: Joe]

Bag up your work, hit the block and pitch

Don't stop 'til you rich, bust shots never snitch

Stick to the script, tuck in your chain  
And everything is everything

[AZ]

Truth is real, believe I take loot for real  
It's the desperation in the dap, boost the wheel  
Trucks and 20's, relax when them cups is in me  
You can catch me at Justin's or up in Jimmy's  
Jeckyl and Hyde, the real never wrestle with pride  
If you live, that's the only way I let you inside  
Love it or not, thrive off the love of the block  
See me solo in a photo, hands huggin' my cock  
Frank furvase, a white cotton tank with shades  
Taper fade, got a face that just ain't for braids  
Been in the mix, sittin' up in cinema six  
Multi-complex, go before the end of the flick  
It's just me, besides I'm just a G  
With the O in the front, I know what you want  
Believe I'm sucka-free this one

[Joe]

That's how we ball, that's how we bang  
Everybody do your thang

[Chorus x2]

[bridge: Joe]
