

# Az, Take Care Of Me

[Chorus]

Let me call shortie up  
If tonight's the, night then let me know  
Hit me up as soon as possible  
Got it on right here for you baby, take it from me  
(AZ) Keep doing this, man  
We could do that little bit ya like  
You know the one that keeps us up all night  
I'm a little uptight baby, baby take it from me  
(AZ) Amusing me, huh? Okay

Look, I just landed, your request is granted  
I'm in some 2-seater, pumping the best of Janet  
Be through in a minute or two, I'm wit the fellas  
Bullshiting, trying to finish my brew  
But I'm here, it's nice weather, short-sleeve  
Ice weather, had on the matins but the nikes was better  
Hope you relax and tonight's whatever  
Fatal attraction, the life of pleasure  
Got bottles of the L-I-Q, champagne a little 'gnac  
You can tell I knew, talk to me  
The house or the 'telly suite, I need to know  
The perception on my celly's weak, batteries low

[Chorus]

If tonight's the, night then let me know  
(AZ) Hello? Yo  
Hit me up as soon as possible  
(AZ) Damn  
Got it on right here for you baby take it from me  
(AZ) Keep on doing this shit, wordup  
We could do that little bit ya like  
(AZ) Gotta give all this up, man  
You know the one that keeps us up all night  
(AZ) Crazy  
I'm a little uptight baby, baby take it from me

Listen, I need a diva that could roll cheeba  
Blow in and out of town on her own leisure  
Love shopping, kalhua's when she club hopping  
Pretty toes, love the pose when the thug's watching  
Play fair, hair done, face clear,  
Type of chick any playa wanna take care, she that nice  
The truth is that I've been trapped twice  
Told her my life, need a wife for me to act right  
Or could it be, just me on a hoe spree  
Nowadays, live alone and I'm lonely, spreading my wings  
A player in prokeds and some jeans, a pioneer  
And gettin' slow head is my thing  
I'm in the mix, wit the lies come along wit the tricks  
Improvise, pretty thighs come along wit the hips  
I can't knock it, try it but I can't stop it  
It's in my blood, like the same way I love chocolate  
And all I hear is

[Chorus]

If tonight's the, night then let me know  
(AZ) Whoa  
Hit me up as soon as possible  
(AZ) It's on now  
Got it on right here for you baby, take it from me  
(AZ) Gotta get away man, gotta leave this alone man

We could do that little bit ya like  
(AZ) Can't keep living like this  
You know the one that keeps us up all night  
(AZ) Just one shortie, one, one  
I'm a little uptight baby, baby take it from me  
(AZ) That's all I need one, wordup

I'm in my prime wit a lot on my plate, the party life  
Clear my mind when I'm out of the states  
Feeling relieved, revived when I'm feeling the breeze  
I'm at my best when I'm chilling and I'm feeling at ease  
Ladies respect  
It's hard when I'm backwards balling, playing the field  
And a whole lotta ass be calling, nothing is real  
Is it wrong 'cuz I'm doing my thing?, pimping if, either or  
But I do what you dream  
Follow the leader, I've seen what I needed to see  
Leave it to me, and believe I'm not easy to g  
Don't even try it, so ladies, all together, let's sing it  
I know your needs and your wants  
And if you want me to bring it, I gotta hear it

[Chorus]

If tonight's the, night then let me know  
(AZ) Okay  
Hit me up as soon as possible  
(AZ) I'ma figure this all out  
Got it on for you right here baby, take it from me  
(AZ) I don't if I'm getting used  
We could do that little bit ya like,  
(AZ) Or if I'm using them, I'ma figure this all out though  
You know the one that keeps us up all night  
(AZ) I'm getting ready to go thru though  
I'm a little uptight baby, baby take it from me  
(AZ) Try that, you'll find out where you at

[AZ]

Hold up  
Yo dun lemme use your cell for a minute, men, my  
Mine's dead man  
Getting ready to break out, yeah, try that  
I'll see y'all tomorrow, man, wordup  
Eyo, save some of that too for tomorrow  
We outa here, man, we going to Vegas  
Our year, tomorrow

[Chorus]

If tonight's the, night then let me know  
Hit me up as soon as possible  
Got it on for you right here baby, take it from me  
We could do that little bit ya like  
You know the one that keeps us up all night  
I'm a little uptight baby, baby take it from me
