Aztek Trip, I Like It

Behold the truth of your dreaming come true Inside your mind your delusional, I think... I think I like It, I know we're like this I think we seak it

Inside your life things are twisted around Your life's painted picture perfect again hearing voices telling me what is real What is real I'm not too sure of but I think I like It, I know we're like this I think we seak it

I think I like it, I know we're like this I think we seek it -I think I like It -It makes me happy

Conversations blending in and out Tender feeling erodes away I think I like It, I know we're like this I think we seak it

I think I like it, I know we're like this I think we seek it -I think I like It -It makes me happy

Waste not want not leave me be...So I'm not like that

Yeah!
I think I like it,
I know we're like this
I think we seek it
-I think I like It
-It makes me happy
