

Aztek Trip, Someday

Maybe it someday
Maybe if someday it'll all change
Maybe someday you will realize
Maybe if someday you will find nothings what it used to be
Maybe someday well find out ...

It's been so long since I let it all out
Its been so long since i remember now
its been so long since ive opened up
its been so long since ive drug you in

maybe its someday you can show me how to love again
maybe if someday if i were not so mistaken
maybe if someday lookin back itll all look funny to us
maybe someday we'll find out

It's been so long since I let it all out
Its been so long since i remember now
its been so long since ive opened up
its been so long since ive drug you in

It's been so long since I let it all out
Its been so long since i remember now
its been so long since ive opened up
its been so long since ive drug you in

maybe if someday we will understand why we feel this way
maybe if someday we will learn how we fit in
