

Azure Ray, Sleep

Fill these spaces up with days
In my room
You can go, you can stay

But I can't sleep
I can't speak to you
I can't sleep

Now these years locked in my drawer
I'll open to see
just to be sure

But I can't sleep
I can't speak to you
I can't sleep

And so I'm reaching out for the one
And so I've learned the meaning of the sun
And all this like a message comes
to shift my point of view
I'm watching through my own light
as it tints the shade of you

Hold my wine, hold it in
Nobody's lost
but nobody wins

And I can't sleep
I can't speak to you
I can't sleep

And so I'm reaching out for the one
And so I've learned the meaning of the sun
And all this like a message comes
to shift my point of view
I'm watching through my own light
as it tints the shade of you

I can't sleep
I can't speak to you...
