

# B.B. King, Night Life (With Willie Nelson)

When the evening sun goes down  
You're gonna find me hanging 'round  
The night life ain't no good life  
But it's my life  
Many people just like me  
Dreaming of old 'used to be'  
Night life ain't no good life  
But it's my life  
Well, now listen to the blues they're playing, they're playing  
Listen to what the blues are saying  
Mine is just another scene from the world of broken dreams  
And the night life ain't no good life  
But it's my life  
Alright baby, play the blues  
Thank you  
Listen to the blues they're playing  
Listen to the blues, listen to what the blues are saying  
Mine is just another scene, oh from the world, world of broken dreams  
And night life ain't no good life  
But it's my life, yes it is  
And night life ain't no good life  
But it's my life
