B*Witched, Together We'll Be Fine

Starin' at the walls Sittin' on this bed Waiting for the phone to ring To see what lies ahead Memories on the table Clothes thrown on the floor Trace of what was gonna be Is not there anymore

BRIDGE:

But we'll get through this somehow 'Cause we've got each other now

CHORUS:

Ohh, times change Together we'll be fine You and me, yeah It's not easy all the time You knew it would come to this Hard, it's oh so hard You and me, yeah Together we'll be fine

Voices in our heads Silence in the room Conversations that we had Words we wanna say Life is rolling by As we understand Smiles are coming back again The power's in our hands
