

# Baby Animals, Make It End

This silence is so loud it's deafening  
Oh it seems to hang around just to threaten me  
So I lose my head every now and then  
But I still don't know how to make it end  
Make it end gonna lock you out  
I'm in Hell here without you  
Checking out ain't no remedy -- ooh please  
This noise is blaring through my memory  
It's just the thought of you that's driving me  
So I said goodbye and you lost your mind  
Turn the tables around now I'm losing mine  
Make it end gonna lock you out  
I'm in Hell here without you  
Checking out ain't no remedy no -- so ooh please
