

Babydoll, Always And Forever

You have given me all the love I need
When I'm with you
I will thank-you for all you've done for me
I love you so
We will last forever, I know
Forever and one day
I will always give my love to you
Till the day I die

Chorus:
Always and forever
I will love you
Always and forever
My love is true
I love you just the way you are
Always, forever
Always and forever
I will love you
Always and forever
My love is true
I promise you that we'll never part
Always, forever

I don't wanna lose what we've begun
Two lovers at one love
Faith and honesty in our hearts
That's what we share
We will last forever, I know
Forever and one day
I will always give my love to you
Till the day I die

Chorus

We will last forever, I know
Forever and one day
I will always give my love to you
Till the day I die

Chorus
