Babyface, Diggin' On You

Written by babyface (1994) Performed by tlc

I was like peace in a groove On a sunday afternoon You were there so was i In the park 4th of july I was chillin' with my kool-aid When miss chilli came to relay That you had a thang for me Finest thang you'd ever seen

I must admit to you I've heard them lines a time or two Although for some apparent reason Monkey lines are now in season Lights off, lights on I guess the groove is on so I am

Diggin' the scene
Diggin' on you
Diggin' on me
Baby bay-ooo-baby baby
It's on like that
It's on like that
I gotta be in love or somethin' like that

I was like deep in a cool

What'nt gone be nobody's fool Could not care less who was there Could've been like anywhere I was chillin' with my kool-aid Did not want to participate In no silly conversations Had no time for new relationships

I must admit to you When I heard the lines you threw Although it usually turns me off But this time you have turned me on Lights off, lights on I guess the groove is on and I am

Oh why do I feel the way I do When all I can think about is you Diggin' diggin' diggin' on you What was it in a line That made me fall for you Do you know Why I'm diggin' diggin' diggin' on you

Diggin' diggin' diggin' on you
