## Babyface, Isn't It Scary

Written by jon b. (1995) Performed by jon b.

I know a place Where we can get it on good, baby As far away, baby From the world and all the city lights If you're not scared to get away From the normal things From the normal dreams And you're not thinking About your man at home Just me and you alone Ain't it scary, baby

Isn't it scary How you're here with me And not with your man at home Isn't it scary

How you're here with me And not with your man at home Me and you alone

And baby, baby, baby, baby Don't you see this love runs deep in me Pretty lady, oh girl I feel too good to feel guilty I'm sorry for nothing Except that I'm not with you for good And if I could, if I could, yeah I'd make you mine, oh mine Now aren't scared

Hook 2 times

Isn't it scary Ah babe
