Written by marc harris, tommy sims, babyface (1999)

I can't explain it
Kinda get this feelin' like wow
Yeah baby
Been tryin'to say it
But I just don't quite know how
Oh but now
I'm hangin'on
Strong to the hope that i
See in your eyes

Every time you look my way
I can feel your heart beat
And it feels like a brand new day
So please say
That love will be waiting
And it will never ever go away away away

You been tryin' to tell me
How you were feelin' inside yeah lady
Somehow I missed you
I can't tell you why
Oh but please gimmie just one more chance

To make it up to you
And I promise

Every time you call my name
I will heart speak
And it speaks of a brand new day
And you'll say
That love will be waiting
And it will never
Every time you call my name
I will heart speak
And it speaks of a brand new day
And you'll say
That love will be waiting
And it will never ever go away away away

So baby if it feels right
Let's make it last forever yeah
Our love is worth a lifetime
Of indescribable joy
And you won't be disappointed
Giving you my word
Trust me with your hear and your love

Hook to fade
