

# Babyface, Outside In/Inside Out

How can I forget about the day I first met you  
The way you walked in to the room with so much attitude  
Sometimes people go through life  
Searching for a sign  
Girl I know that I found mine  
When I look into your eyes

[Chorus] Outside in, inside out, you do it for me ya knock me out a sight to  
see from head to toe  
had to let you know  
Outside in, inside out, you do it for me ya knock me out a sight to see from  
head to toe  
had to let you know

Girl I lost my mind I saw you dancin on the floor  
You looked so damn fly sweat started comin from my pores  
Soemtimes people go through life  
Searching for the one  
Girl I know that I found mine  
And I know its love

[Chorus]

Tell me (when and if) I can see you  
(How's about) tomorrow night  
No one (has to know what) we do (what we do til ya say) until say it's alright  
(its alright, its alright baby, its alright baby)  
It's alright baby, It's alright baby

[Chorus x2]
