Babyface, Slow Jams

Sugar, sugar

Baby dim the lights
So while I pour the wine
Set the music up nice and slow
Wanna move with you inside a groove
Like no one's ever known
Let your body unwind in the warmth of mine
Tell me what you like
'Cause tonite I wanna turn you up to paradise

Sweet thang hold me close Share my desire And we can make the magic flow Once the music is right

Give me slow jams and hot romance Rock me with that tender dance Baby get closer so we can feel the power of love Share my sweet groove the whole night through Let me lay my beat on you We'll keep the music playing movin' in time

Let me get a taste of some Babyface And you know it'll be alright 'Cause the road that ends at Boyz II Men Is the road I wanna ride We can go to the moon on a Stevie tune Fly ribbons in the sky Give me everything R. Kelly sings Let us bump and grind

Baby feel the beat Here in my heart Move with me in ecstacy Let the melody start

Give me slow jams and hot romance
Rock me in that tender dance
I wanna feel the passion so give me all you got
Share my sweet groove the whole night through
Make tonight a dream come true
Let's keep this groove thing going and never never let it stop

It's something that feels so right Take this side of your rhythm

Baby tonight's your night When I feel your beat inside my soul It's a do me groove I know I can't control

Sweet thang hold me close Share my desire We can make the magic flow Once the music is rockin'

Give me slow jams and hot romance Rock me with that tender dance I wanna feel the passion so give me all you got Share my sweet groove the whole night through Let me lay my beat on you Let's keep this good thing going Movin' in time with something good [HOOK]
