Written by jon b. (1995) Performed by after 7

A thousand words for why I love you Girl, I could go on all night telling you why it'll be true Let's stretch out on my leather couch under our 18 by 22 I cannot try to explain it Baby how can say it to you

Girl you're the rest of my life and all And you come whenever I call Girl I just wanna say it I thank you from the bottom of my heart That's why

Baby, what you are to me
No one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feelin'
From taking over and over
And I know I can't stop it girl, you're mine
You're mine, yeah

I can understand how you want your space

Give it all some time to let it soak into your mind Searching all my life for a woman like you Gonna do exactly what my precious heart tells me to

Oh girl, you're the rest of my life and all And you come whenever I call, girl And baby I just wanna say it I thank you from the bottom of my heart

Ooh, ooh, baby, what you are to me No one else can be Ooh, and I think I'm in love baby Ooh ooh, baby just can't stop this feelin' From taking over and over And I know I can't stop it girl, you're mine

I know that you've been hurt before By men who swear it all But I just wanna say Wanna take it day by day I'm gonna pick you up whenever you Pick you up whenever you fall
