

# Babyland, Worst Case Scenario

I am the lowest of the low  
It's hell being enlightened  
You've got to live with what you know  
Worst case scenario

Always fighting with my mind  
Always kicking down the compromise  
My grip is gone, the past is black  
It's been done before  
And I like where I'm at

I am the lowest of the low  
It's hell being enlightened  
You've got to live with what you know  
And what you don't know  
Worst case scenario

Higher high high  
You've got to come down
