Spaceman

I always wanted you to go into space, man (intergalactic Christ)

Spaceman

I always wanted you to go into space, man (intergalactic Christ)

Pungent smells, they consummate my home

Beyond the black horizon, trying to take control

See my girl, she shivers in her bones

The sun and zenith rising, trying to take us all

There's a fire between us, so where is your God?

There's a fire between us

I can't get off the carousel, I can't get off the carousel

I can't get off the carousel, I can't get off this world

The sickening taste

Homophobic jokes

Images of fascist votes

Beam me up, 'cause I can't breathe

Spaceman

I always wanted you to go into space, man

I can't get off, I can't get off

I can't get off, I can't

I can't get off, I can't get off

I can't get off, I can't

It's time to terminate the great wide world

Morbid fascinations, television takes control

Decimation, different races fall

Electronic information tampers with your soul

There's a fire between us, so where is your God?

There's a fire between us

I can't get off the carousel, I can't fall off this world

The sickening taste

Homophobic jokes

Images of fascist votes

Beam me up, 'cause I can't breathe
