Babys, The
Head First
California

When i came back home from the usa
I had nothin' in my pockets and not a lot to say
Though i knew somehow we would meet real soon
But the way you've been avoidin' me
It's like i'm livin' on the moon
Here i am on this side of the stars
Livin' in california
And sometimes i get out of reach in the bars
Dreamin' about my life
And maybe one day i'll take a wife
Though i spent some time on the evil road
I've done things that i'm ashamed of
Oh man it's such a heavy load
Though i knew somehow we would meet real soon
But the way you've been avoidin' me
It's like i'm livin' on the moon
Here i am on this side of the stars
Livin' in california
And sometimes i get out of reach in the bars
Dreamin' about my life
And maybe one day i'll take a wife
Oh
I miss you girl
Your dreams are more than i can take
You are the love of my life
But i could be my biggest mistake
Ah babe my heart's turnin' like a wheel
I feel emotion for you but i just can't tell if it's real
When i came back home from the usa
I had nothin' in my pockets and not a lot to say
Though i knew somehow we would meet real soon
But the way you've been avoidin' me
It's like i'm livin' on the moon
Here i am on this side of the stars
Livin' in california
And sometimes i get out of reach in the bars
Dreamin' about my life
And maybe one day i'll take a wife
Oh ooooh baby oh i miss you girl
