Babys, The

The Babys

Wild Man

Call me a wild man

Well i've seen the world

I've had it all in my hands

I had some love but i lost my way

I threw it in for the band

Oh oh

Call me a wild man

And i'll never know

Oh oh

Call me a wild man

And i'll never know

Call me a rover

Cause i've seen some sights

I've had the things that make men smile

But through these years

As i reached the end

Oh i need a friend

Oh

This ain't like i thought it would be no

I'm just a sailor on the deepest dark sea

Ah

Looks like life's got the best of me

I'm just a young man

But at least i've tried

Call me a wild man

Yeah i've seen the world

I've had it all in my hands

I had some love but i lost my way

I threw it in for the band

Oh oh

Call me a wild man and i'll never know

Oh oh

Call me a wild man and i'll never know

Oh oh

Call me a wild man and i'll never know
