

# Bachman-Turner Overdrive, Life Still Goes On (I'm

Standin' in the street, shaved, I'm washed and neat  
And the time is mine but I don't even know where I'm goin'  
Been too long in town, just workin' right tied down  
But I've got my pay and I'm willin' to spend all I'm earnin'  
Maybe, over town, where the say love can be found anytime of day  
I'll be lookin', you know, I've been wishin'  
Need a lovin' face, nice hair, some fancy lace, someone soft and warm  
Then those nights spent alone won't seem wasted  
Get me on down, get me into the place  
Where the beat of the street and the people you meet  
Take the blues far away 'cause I'm lonely  
Ya, baby, I'm lonely and life still goes on where I'm goin'  
Listen, can you hear me now?  
Can you hear me, I'm callin' for lovin'?  
Hear me, won't you listen now?  
Can you hear me, I'm callin' for lovin'?
