

# Bachman-Turner Overdrive, Rock Is My Life, and

It's a hurried up life  
But it's the life I choose  
No use in asking me to slow down  
'Cause I got nothing to lose  
But time and time is all I've got  
You know I was born standin' up  
With a guitar in my hand  
I'm not tryin' to come on like Hollywood  
But Hollywood is what I am  
When we come into a new town  
Everybody's there  
When we play our music  
Hands are in the air  
When the music's over  
You wonder where we are  
I'm standing in the silence  
With my old guitar  
Rock is my life and this is my song  
It's a cryin' shame  
That some of us have not survived  
No use in askin' how it happened  
But very few are left alive  
I just wanna keep on makin' music  
We gotta keep on keepin' on  
You're only as good as your last record  
I know that someday we'll be gone, gone  
When we come into a new town  
Everybody's there  
When we play our music  
Hands are in the air  
When the music's over  
You wonder where we are  
I'm standing in the silence  
With my old guitar  
Rock is my life and this is my song  
When we come into a new town, new town  
Everybody's there  
When we play our music  
Candles light the air  
When the music's over, over  
You wonder where we are  
I'm standing in the silence  
With my old guitar, my only friend  
Rock is my life and this is my song  
And this is my song  
Rock is my life and [Incomprehensible]  
When we come into a new town, new town  
Everybody's there
