I Still Love You

Why, why, how sould you do that to me

You out my love, to another love

Don't seem that long enough

I can't without you

Oh oh baby

CHORUS

No matter what happen

You can count on my love

I will stand by you forver

And I still love you

No matter what happen

I still love you, oh baby

Maybe you are betrator

Maybe you are not

But how our love doesn't fix

Why, why sould you do that to me

Our love once again will forever

And i will be with you

CHORUS - REPEAT

Our love once again forever (forever yeah)

How could you do that to me

Follow another love

No matter what you had done

I still love you, oh

CHORUS - REPEAT
