I Wanna Be Happy

i see people come and go, see people fall in & outta love  
As my mother told me she said don't let life control me, but i did  
So what you think of me, what you think of me now and who i am?  
I'm everything you wanted me to be, as you can see i'm very happy

I need sometime to find myself in me  
And i need sometime to find true love  
But if i can't then i won't stop trying  
If i don't then i won't live lying  
What do people really want?  
They wanna be happy...  
I wanna be happy.
