

Backstreet Boys, Masquerade

This scenes so hypnotic
Smoking mirrors, lights and magic
Paper faces in gold
There's solider boys, beauty queens
Everyone's a mystery
It's got me losing control
Yearning, I'm yearning for the one to steal my eyes
Wanna play in this game of disguise
It's a masquerade, a love parade
So won't you stay
And dance with me all through the night, I'll stay
My masquerade, I need you baby
So stay with me tonight
Masquerade, Masquerade, Masquerade, Masquerade
Masquerade, Masquerade, Masquerade, Masquerade
Just like a perfect dream
I don't ever wanna leave
A thousand freaks in the show
One's a tiger, one's a lynx
One's a king that suffering
Moving high, moving low
Burning, I'm burning, can't you see it in my eyes?
Wanna play in this game of disguise
It's a masquerade, a love parade
So won't you stay
And dance with me all through the night, I'll stay
My masquerade, I need you baby
So stay with me tonight
Masquerade, Masquerade, Masquerade, Masquerade
Masquerade, Masquerade, Masquerade, Masquerade
I gotta know the girl behind the mask
Let me in, where you been, don't pretend
Dreamed that I had her alone
Show your face to me, we could be everything
It's a masquerade, a love parade
So won't you stay
And dance with me all through the night, I'll stay
My masquerade, I need you baby
So stay
A masquerade, a love parade
So won't you stay
And dance with me all through the night, I'll stay
My masquerade, I need you baby
So stay with me tonight
Masquerade, Masquerade, Masquerade, Masquerade
Masquerade, Masquerade, Masquerade, Masquerade
