

# Backstreet Boys, Missing You

Backstreet Boys  
Backstreet's Back  
Missing You

~chorus~

Oh baby, im missing you  
We used to luv so stong  
Tell me, where did we go wrong  
Oh baby, im missing you  
They say ill learn to forget  
But it sure aint happened yet

Ive been checking out the places where we used to go  
And looking for your face inside the crowd  
Ive been talking to the people that we used to know  
But nobody wants to say where you hang out  
And when i call your phone  
Seems like your never ever home  
And you dont return my calls  
It tears me apart, this breaking of my heart

~chorus~

I still have your pictures hung around my room  
Theyre the only thing thats left of you and me  
Girl want can i do to make you come back soon  
And make it just the way it used to be  
Oh, is there someone new  
Can never go on with out you  
Girl i dont wanna think about ~ think about this~  
I cant sleep at night, no this cant be right  
Come back into my life ~come back baby come back~

~chorus~

I know theres a chance for you and i  
And i believe theres no way our love could die  
So no matter how long it takes ill wait for you  
And whatever it takes ill be there for you  
Ill be there, ill be there

~chorus~ repeat
