Just stand here, don't let go

You can save me from the man that I've become

I was trying to said sorry

To keep you in me

But you wanna out of part

Now let me show you the shape of my heart

Sandness may beautiful

Loneliness is tragical

So help me I can't without you (without you), oh no

Just stand here and thinking

Everything I've done for you

If every second that make me weaker

You can save me from the man that I've become (become)...

CHORUS - REPEAT

I'm here with all my love

I got nothing to hide from you

I don't know when you start

But to show you the shape of my heart

I looking back to the thing I've done

Keep ya in the dark

Now let me show you the shape of my he
