Curious Intentions

Curious intentions fill my heart with sin

Makes me feel like I got uh, plenty hell to raise

And I'm about to begin

Livin' the life right out of a dream

Adding coal to the fire of my self-esteem

Glorious inventions

Fill the world with fear

All the lies that confide my mind

They make it crystal clear

Livin' the life right out of a dream

Adding coal to the fire of my self-esteem

It's not my fault that I had to deceive

But I got that way

And all I did was believe

Livin' the life right out of a dream

Adding coal to the fire of my self-esteem

It's not my fault that I had to deceive

But I got that way

And all I did was believe
