

Bad Acid Trip, Strange Humans

We humans are getting pretty strange
And maybe we forgot how to use our brains
Fearing yourself and all those around
We're all living in a system of a down
Can't you see you're just like me
There's no reason to hate
So let's laugh and have some fun
Before it's too late
We humans are getting pretty strange
And I think we forgot how to use our brains
Fearing yourself and all those around
We're all living in a system of a down
I don't think you even know
Why it is you hate me so
Spend your life living a lie
That they provide and you buy
We've become trapped in our shells
Put ourselves through mental hell
Why do we live this way
Change ourselves and seize the day
Can't you see you're just like me
There's no reason to hate
So let's laugh and have some fun
Before it's too late
Strange Humans
