

Bad Astronaut, If I Had A Son

My son, my seed, my name, my need
Believe, belong, be loved, be strong

Coz everyone here is down on you
And they walk out on you
Try not to let division overwhelm your trust

Let out, let down, cast out
Enough, move on, be proud, endowed

Coz everyone here is down on you
And they will denigrate your will
In spite still please
Them til you overwhelm them
Humble everyone

Minus, divide, equate each side
That's all a lie connect, decide

Coz everyone here is down on you
And they walk out on you
Try not to let it overwhelm you

Everyone here will complicate your world
And they'll extract the vaue
Try not to let the problems overwhelm you
Get over everyone

My son speed low
