Dance The Night Away
Call me.

When you need me better call me.
Cause loneliness is just a waste of time.
Especially at night.

Baby.
If you're trusting me and maybe.
Paradise is just one step from here.
And I will meet you there.

Let us dance the night away.
Right up till the dawn.
Oh, woman keep me warm.
Dance the night away.
When the music stops, everything is fine.
The music makes you move,
Love takes us into the groove.
Dance the night away,
This is. This is. This is sound of night.

Call me.
When you need me better call me.
Cause I really know where we should go.
When the lights are low.

Miss you.
Want to rock you.
Want to kiss you.
Little lady that's my special way to say that I love you.
